

eFLASHER II

Light and convenient, the **eFLASHER II** is ideal for every deaf computer user. Provides three (3) flashes for each computer sound or call signal received. Whether you are away from your monitor, unable to notice flashing alerts, cannot hear the speaker's sound, or your monitor is turned off (i.e. screensaver), the **eFLASHER II** is designed to quickly alert users to any incoming e-mails, TTY-PC, instant message (IM), IP-Relay, VRS, or videochat signal calls. Both IBM-PC and Macintosh-compatible, the **eFLASHER II** also intelligently screens out music or other regular system sounds. Plus, the **eFLASHER II** comes with doorbell (non-chime or chime mode) and telephone flashing, too!
