

eFLASHER IV

Light and convenient, the **eFLASHER IV** is ideal for every deaf computer user. Provides three (3) flashes for each computer sound or call signal received. Whether you are away from your monitor, unable to notice flashing alerts, cannot hear the speaker's sound, or your monitor is turned off (i.e. screensaver), the **eFLASHER IV** is designed to quickly alert users to any incoming e-mails, TTY-PC, instant message (IM), IP-Relay, VRS, or videochat signal calls. Both IBM-PC and Macintosh-compatible, the **eFLASHER IV** also intelligently screens out music or other regular system sounds. Plus, the **eFLASHER IV** operates a built-in X-10 wireless transmitting system feature.
